

Bonilkumar Tailor

bonilkumartailor@gmail.com | +91 9978694198 | [LinkedIn](#)

PROFESSIONAL SUMMARY

- Data Scientist with 2+ years of experience delivering analytics, machine learning, and reporting solutions.
- Strong expertise in Python, SQL, statistical modeling, data visualization, and data pipeline development.
- Strong communicator translating data and model outputs into business and risk insights.

SKILLS

Programming & Querying:

Python (NumPy, Pandas), SQL, R, DAX, Git, Jupyter

Data Analysis & Visualization:

Data Manipulation, Exploratory Data Analysis, Statistical Analysis, KPI reporting, Power BI, Excel, Tableau

Machine Learning & Deep Learning:

Supervised/unsupervised Learning, Scikit-learn, TensorFlow, PyTorch, Time-Series Analysis, Multimodal Learning

Data Engineering & Warehousing:

ETL Pipelines, Data Quality & Validation, Data Modeling, Databricks, Airflow, Azure

WORK EXPERIENCE

Data Scientist

April 2025 – October 2025

DataAnnotation, Remote

- Evaluated ML and LLM outputs using validation checks and performance metrics to assess model quality.
- Performed large-scale data manipulation and transformation to prepare structured datasets for model training.
- Performed data cleaning, annotation consistency checks, and quality assessments to improve model accuracy and performance.

Machine Learning Research Assistant

October 2024 – February 2025

Department of Computer Science, University of Liverpool

- Developed and evaluated multimodal machine learning models using time-series and sensor data (Visual, Tactile and Contact).
- Applied statistical analysis to assess model performance, robustness, and suitability for real-time use cases.
- Integrated ML models into structured decision frameworks to support explainability and downstream automation.

Senior Systems Analyst

January 2021 – May 2023

Infosys Limited (Telstra Group Limited), Bangalore, India

- Optimized telecom data pipelines by refactoring 200+ Oracle SQL queries, improving execution performance by 45%.
- Analysed 5M+ customer records to support churn analysis, service optimization, and operational insights.
- Automated SQL-based KPI reporting and data quality checks, reducing manual reporting effort by 50%.
- Developed Power BI dashboards to support service quality monitoring and executive decision-making.

EDUCATION

Master of Science, Data Science and Artificial Intelligence

September 2023 – December 2024

University of Liverpool, United Kingdom

Bachelor of Technology, Electronics & Communications Engineering

September 2016 – May 2020

Dharmsinh Desai University, India

ACHIVEMENTS & CERTIFICATIONS

- Co-authored a research paper ThET3.3, published at IEEE ICRA 2025: "[Multimodal Behaviour Trees for Robotic Laboratory Task Automation](#)".
- Presented a research paper at [ISRO Space Applications Centre \(ISSE-INAC-4\)](#).
- [IBM Professional Certificate](#) – Databases and SQL for Data Science with Python.
- [IBM Professional Certificate](#) – Python for Data Science, AI & Development.
